Report on Agri Study Visit (UNDER MOU)

Date: 22th May. 2023

Class: B.A. III Economics Department,

Venue: Sanjivani Agri Tourism, Bhose.

Objectives: Students will enhance their skills and knowledge on:

- How to do agribusiness.
- What crops can be grown from agriculture.
- How to protect crops from disease.
- Employment generation from Agri-tourism.
- How to make economic progress through agriculture.
- Sale of agricultural commodities through Agri-tourism.

Introduction:

Agri Tourism owner Mr. A. M. Malgave and their staff gave a warm welcome to students. The session was conducted by Mr. A. M. Malgave who gave a brief introduction to Sanjivani Agri Tourism and he explained a visit to Agri Tourism is always informative.

About Sanjivani Agri Tourism:

Learning about local markets and other employment opportunities for farmers through agri-tourism. Farmers can decide the price of their produce on their own. The locals will get employment opportunities only from the things around agriculture, manpower is required for the tourist center. Tourist planning, mentoring, cooking, farming, gardening, laundry, trekking, boating, camping, market shopping, online marketing, advertising and management all require a large number of workers. This provides employment opportunities at the village level to the youth of the village including the farmers.

Agri-tourism is a great way to learn about and experience agriculture and agribusiness. How much hard work is required in agriculture? The Agri-tourism center will also make the village famous and raise the standard of living in the rural areas. In rural areas, some rare medicinal plants, fruit and flower farming and market-oriented crops are given guidance in the Agri-tourism center. Also, experience comes from a face-to-face meeting. Students can get information about this through Agri-tourism.

The purpose of this initiative was to create awareness among the students about the importance of agriculture, the availability of employment and its agricultural features, as well as educate the students about their rights and responsibilities as farmers.

Conclusion:

Visit to the Sanjivani Agri Tourism was a great experience for our students to learn many new and different things about the functioning of the Agri tourism. Thanks to Principal Dr. D. G. Kanase, for giving this opportunity.
