**REPORT**

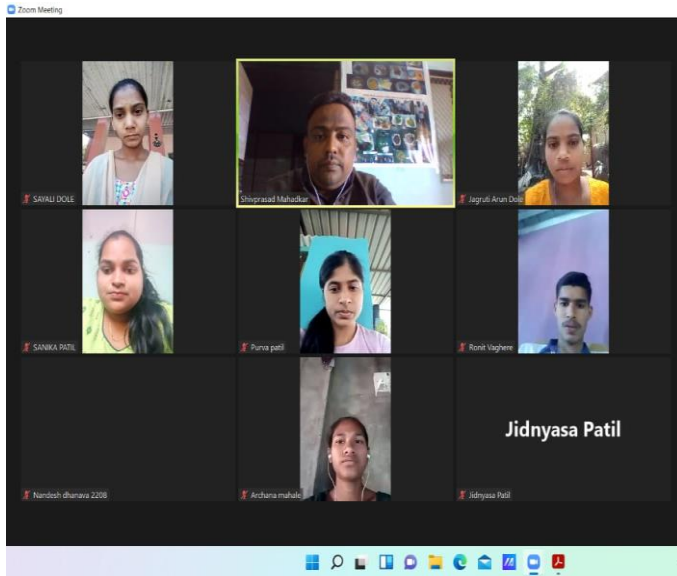

---

Dr. V. B. Awale welcomed the webinar's guest, Dr. Shivprasad Mahadkar, at 11:00 a.m. Along with Prin. Dr. D. G. Kanase, faculties and the students attended this session. Dr. Shivprasad Mahadkar began speaking following the official presentation of the visitor.

Dr. Shivprasad Mahadkar discussed the use of plant-based medications in the pharmaceutical industry as well as the significance of botany in various pharmaceutical industrial sectors in his address. Dr. Mahadkar gave comprehensive details on the roles that botanists may play in a variety of sectors, including the pharmaceutical, chemical, and cosmetic industries.

Speaker enlightened the role of phyto-chemical analysis the different sections/departments of industries like research and development, Biotechnology, Agriculture, biochemical research etc. Dr. Mahadkar pointed out that students should learn solid laboratory skills, plant identification, and its physiological characteristics during the Botany graduation time. This would undoubtedly help students become good personnel in many industrial and research scales.

After the speaker's nicely and thorough speech, a question-and-answer session was held. Mr. Mangesh Gavit served as the webinar's anchor. The webinar finally came to an end with a vote of gratitude from Mr. Wangikar. Finally, Dr. Awale announced that the webinar had successfully concluded with the consent of all participants.
