high blood pressure. After their guidance the student and faculty members were spend time to interact with him. All felt that the session was more informative and nicer.

In the presidential address Prin. Dr. D. G. Kanase told that the heart is a very important organ. If any organ in the body is damaged, it will be replaced but not about the heart. Therefore, it must be preserved. He congratulates the staff academy for organizing such type of activity in our college. Finally, the vote of thanks is given by Dr. A. R. Supale.
