A Guest Lecture on

'Elimination Reactions'

A guest lecture on the topic 'Elimination reactions' was organized by the Department of Chemistry, Dr. D. Y. Patil Agricultural and Technical University, Talsande, on January 13, 2023, at 10 a.m. The activity was conducted under the MoU signed between D.Y. Patil Agricultural and Technical University, Talsande, and Bharati Vidyapeeth's Dr. Patangrao Kadam Mahavidyalaya, Sangli. Around 60 students from the M.Sc. II (Organic Chemistry) class attended this lecture.

The main objective of the lecture was to provide the students with a brief introduction to the types of organic reactions. The program was graced by Dr. Mote (Dean) as chief patron. Dr. Sandeep Wategaonkar had welcomed resource person Dr. T. R. Lohar (Assistant Professor, Department of Chemistry, Dr. Patangrao Kadam Mahavidyalaya, Sangli). The session was then continued by Dr. Lohar, who began with the difference between substitution, addition, and elimination reactions. He explained the mechanisms of elimination reactions such as the E1, E2, and E1cB reactions with examples. Lastly, students were given a few questions as homework for more practice. It was a learning experience for all the students as they got different perspectives on the topic 'Elimination Reaction'. The session was concluded with a vote of thanks delivered by Dr. T. R. Bhosale.
