Department of Microbiology

“Research orientation through Poetic Microbes competition”

Report

Date: 25/7/2018

Poetic Microbes competition was organized by the department of Microbiology in association with Microbiologists Society of India on Wednesday, 25/7/2018. The anchoring of the event was done by Miss. S. V. Velhal. Mr. A. A. Mulani welcomed HOD, faculty and students. Total 15 students were participated in the Poetic Microbes competition from B.Sc-I, II and III. Most of the poems presented by the students were related to fermentation, microbial prokaryotic cells, staining and sterilization. Mr. Vishal Mali and Mr. Prathamesh Bargale got 1st prize and these students were awarded with certificate as a token of appreciation. Vote of thanks was done by Miss. M. T. Sathe.

Bacteria

Both good and bad. bacteria.

Asexually reproduce

Cows need them for digestion, and

They are one of the smallest living organisms

Even humans need them, too!

Rods, spheres, and spirals are the shape they have

Infectious diseases are their specialty!

And that is why bacteria is both good & bad

Name :- Rutuja Dilip Patil.
