National Webinar on
“Career Opportunities for Microbiologists: In India and Abroad”
Saturday, 31st July 2021
Report

National Webinar on “Career Opportunities for Microbiologists: In India and Abroad” was organized on Saturday, 31st July 2021.

1361 Students and faculty members were benefitted by this webinar. Coordinator Ms. B. K. Bhavikatti welcomed all and gave the forward. She explained the activities of the department and the objective of the webinar.

Resource person Dr. Prashant K. Bhagwat, (Post-doctoral researcher, Durban University, South Africa) in his speech elaborated on his research journey. After that he gave

a nice information about the National institutes, ICMR institutes, ICAR institutes and different Universities where research work is being carried out. He explained in details about the places where microbiologists can do their research career and have scope to work. Afterwords he explained the scope of microbiology outside India in countries like USA, Australia, Japan, China, South Korea, Denmark etc. Dr. Bhagwat has enlightened in his speech about various fellowships which can be availed by the microbiologists in abroad. He rightly pointed out that students must focused in his BSc and MSc so that they can achieve a good career in research field. Hence overall it was very informative and useful lecture for all the emerging microbiologists and budding minds in the field of research.

Prin. Dr. D. G. Kanase was presiding over this function. In his speech he pointed out the importance of Microbiology and its research in the present situations like Covid-19 as well as future.

(Ms. B. K. Bhavikatti)
