by NAAC (3rd Cycle)

Policy document for Green Campus Initiatives and Procedures

The College was established on 16th September 1985, as Arts, Science and Commerce College, Sangli, and it was renamed as Dr. Patangrao Kadam Mahavidyalaya, Sangli on 8th January 1999. The College is trying to bridge the disparity between the rural and urban cultures. The College is selected by DST, India to develop instrumentation facilities under the FIST scheme. We are the proud recipients of the Best NSS Unit Award of the Government of Maharashtra for our substantial work through the National Service Scheme.

Green Campus Initiatives and Procedures:

1. Restricted entry of automobiles:

The vehicles are restricted in the main campus; every third Saturday of each month is 'No Vehicle Day' emphasized on board which was placed on the outskirts of the front lawn.

2. Use of Bicycles/ Electric Vehicles:

The students and faculty members are encouraged to use bicycles and electric vehicles.

3. Pedestrian Friendly Pathways facility is implemented which provides an exclusive space for pedestrians to walk outside of the travel area, which can reduce crash risk by separating vehicles and pedestrians.

4. Ban on the use of plastics:

To avoid the harmful effects of plastic on health and the environment, the college has taken initiatives to make the campus plastic-free. Various boards were displayed like “No use of Plastic”. Separate dust bins to collect plastic waste, and this plastic waste is dispatched to local municipal corporation.

5. Landscaping with trees and plants:

To enhance the natural beauty of the campus and foster environmental benefits, a well-designed landscaping is created. Landscape planning of college yards is of much importance. A beautifully arranged college yard brings up a feeling of beauty in students, raises their spirits, positively influences the health of students, and contributes to the aesthetic education of students.
