Institutional Feedback Policy

Feedback plays a crucial role in our continuous improvement and growth of learning and teaching in the college. Feedback policy is designed to create an open and transparent channel for communication between students, teachers and institutions. It is understood that student feedback is an invaluable asset and it enables us to make informed decisions, refine our processes, and enhance the overall experience for everyone involved. The performance of the college is increasingly analyzed based on effective learning outcomes. Feedback mechanism is essential to know whether the college is performing well and imparting qualitative education. Hence, the college imparts a policy to make feedback forms available for different stakeholders to analyze the performance on different aspects.

Objectives:

- To provide space for continuous enhancement of all services, facilities and procedures.
- To audit and enhance the aspects of students' learning experience through the timely collection, analysis and reporting of student feedback concerning teaching, learning and assessment.
- To motivate students and stakeholders to participate actively in the continual improvement of programs.
